

Future proof  
hearing solutions

## Does this sound familiar?

- I'm struggling to hear at an ideal level at work.
- I can't hear my family and friends as clearly as I would like.
- I'd prefer more automatic functionality in my hearing aids.
- I'm wondering if it's possible for my hearing aids to perform better while listening to music.

With FLEX:UPGRADE you can increase your technology level if your hearing changes significantly.

Your hearing aids can evolve to meet your changing needs. Talk to us about how you can trial a higher technology level.

## Keep these things in mind

Follow the tips below when you're trying your upgraded hearing aids to ensure we get the insights we need to decide on the best solution together.

- Wear them for as many hours as possible
- Use them in environments you usually find challenging
- Try them wherever you spend time

At Unitron, we empower people with life-enhancing hearing experiences that fit seamlessly into their world. Our sound performance technology, experience innovations, and intuitive design work perfectly together for unmatched personalization and optimization. Because everyone deserves to **Love the experience**.™

## Upgradeable technology

You can't predict the future, but you can be ready for anything with Unitron's upgradeable hearing technology. That's why we developed FLEX:UPGRADE, a unique offering only from Unitron.

We can fit you with a comfortable and affordable solution that meets your needs today, along with the peace of mind that you can upgrade technology levels at any time if your hearing changes.

## Keep your options open

With FLEX:UPGRADE you get hearing aids that are as adaptable as you are.

If your hearing needs change:

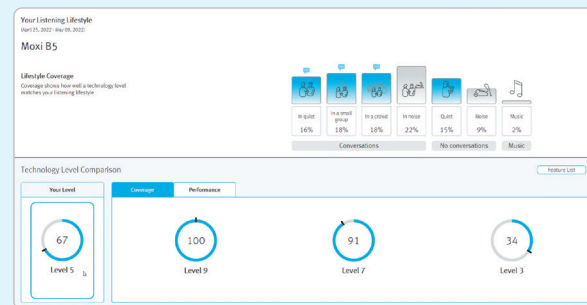

- Visit your hearing care professional to try a new technology level
- If you like it, you can upgrade **without having to buy brand new hearing aids**
- Upgrades are done quickly and easily during an in-clinic visit
- Pay the difference between your current technology level and the new technology level

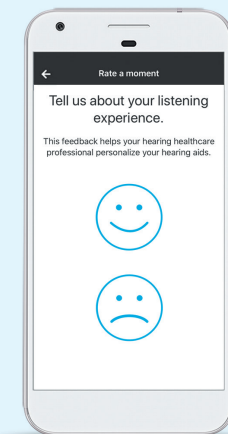

# Make a confident choice

While you're trying the new technology level, your hearing aids will gather insights\*.

Our Log It All feature uses data and easy-to-understand visuals to show you a breakdown of your listening environments and outlines how well each technology level will support your individual needs.

Use our Ratings feature within the Remote Plus app\*\* to rate the performance of your hearing aids while you're out and about to help your hearing care professional truly understand if the upgrade is right for you.

\*\*For the use of the Remote Plus app, Unitron hearing aids with Bluetooth® connectivity is required. The Remote Plus app works on Apple smartphones with iOS 12 or newer and Android smartphones with version 7 or newer.
